

EXPERIMENT NO. 1

Flight Reservation System using Zoho Creator (SaaS)

Aim

To design and develop a Flight Reservation System using Zoho Creator for managing passenger booking details and generating reservation reports.

Objective

- Create a reservation form.
- Store passenger details.
- Display records in a report.
- View individual reservation details.

Software Requirements

- Zoho Creator
- Web Browser (Google Chrome)
- Internet Connection

Theory

A Flight Reservation System is a cloud-based application used to collect passenger information, manage flight bookings, and generate reports. Zoho Creator provides low-code tools to create forms, workflows, and reports without extensive programming.

Procedure

1. Log in to Zoho Creator.
2. Create a new application named Flight Reservation System.
3. Create a form with fields such as Passenger Name, Trip Type, From, To, Departure Date, Return Date, Travelers, Class, Fare Type, Flight Type, Mobile Number, and Email.
4. Save the form.
5. Enter sample booking records.
6. Create a report to display all submitted records.
7. Open individual records to verify stored information.
8. Test the application by adding multiple reservations.

Observation

- The form accepted all passenger details successfully.
- Data was stored correctly after submission.
- The report displayed all reservation records in tabular format.
- Individual records showed complete booking information.
- The application worked correctly without errors.

Result

The Flight Reservation System was successfully created using Zoho Creator. Passenger details were stored, retrieved, and displayed correctly through reports.

Conclusion

The experiment demonstrated how a cloud-based SaaS application can be developed using Zoho Creator to automate flight reservation management efficiently.

The screenshot displays the 'Flight reservation system' form within the Zoho Creator interface. The top navigation bar includes the application name 'Flight Reservation System', a 'Development' status indicator, and user controls like 'View as -MySelf-', a trial expiration notice, and links for 'Upgrade', 'Edit this application', and 'Help'. A dark sidebar on the left contains the 'FRS' logo and a menu with 'Flight reservation system' (selected), 'Flight reservation system Report', and a user profile for 'Roshini B T'. The main form area, titled 'Flight reservation system', contains the following fields: 'Passenger Name' (split into 'First Name' and 'Last Name' text boxes), 'Trip Type' (radio buttons for 'One Way' and 'Round Trip'), 'From' and 'To' (dropdown menus), 'Departure Date' and 'Return Date' (date pickers with 'dd-MMM-yyyy' format), 'Travelers' (a text box with '#####'), 'Class' and 'Fare Type' (dropdown menus), 'Flight Type' (radio buttons for 'Domestic' and 'International'), 'Mobile Number' (a text box with a country code dropdown set to '+91' and the number '81234 56789'), and 'Email' (a text box).

Figure 1: Flight Reservation Form

The screenshot shows a web application interface for a 'Flight Reservation System'. The main content area displays a table titled 'Flight reservation system Report'. The table has 8 columns: Passenger Name, Trip Type, From, To, Departure Date, Return Date, and Travelers. There are 5 rows of data. The sidebar on the left contains navigation links for 'Flight reservation system' and 'Flight reservation system Report'. The top header shows the user is logged in as 'Roshini B T' and has a trial that expires in 8 days.

Passenger Name	Trip Type	From	To	Departure Date	Return Date	Travelers
Rahul G	Round Trip	Mumbai	Delhi	17-Jul-2026	31-Jul-2026	2
Sneha Reddy	One Way	Hyderabad	Chennai	04-Aug-2026	08-Sep-2026	3
Arjun Patel	Round Trip	Delhi	Delhi	12-Aug-2026	18-Jul-2026	2
Priya Sharma	One Way	Bangalore	Mumbai	05-Aug-2026	05-Aug-2026	1
Roshini B T	Round Trip	Chennai	Delhi	25-Jul-2026	30-Jul-2026	2

Figure 2: Reservation Report

Passenger Name	Arjun Patel
Trip Type	Round Trip
From	Delhi
To	Delhi
Departure Date	12-Aug-2026
Return Date	18-Jul-2026
Travelers	2
Class	Bussiness
Fare Type	Regular
Flight Type	International
Mobile Number	+91987654322
Email	arjun123@gmail.com
